📍 **Home:** Urbanización Nuevo San García 2ª Fase Nª 17, 11207 Algeciras (Spain)

ABOUT ME

Higher Technician in Multiplatform Application Development with experience in web and mobile application development. I am a proactive, self-taught, and adaptable person, eager to learn and contribute value from day one.

I am currently looking for an opportunity as a **Junior Developer**, whether in **Frontend, Backend, Fullstack, or Mobile Development** roles.

I have worked with technologies such as **HTML, CSS, JavaScript, Flutter, Kotlin, Python**, and **SQL/NoSQL databases** (MongoDB and MySQL), and have developed both personal and professional projects.

Although I am based in **Cádiz (Spain)** and available for **immediate start locally**, I am mainly seeking opportunities **abroad** to grow both personally and professionally. One of my goals is to **improve my language skills** and immerse myself in new work cultures, which I find truly exciting and motivating.

I am open to **national or international relocation** with a short preparation time.
